Steve Stricker (54), Golf – Winning Ryder Cup captain says he's lucky to be alive after suffering a 'mystery illness' that put him in hospital for weeks, twice, and his immune system was down. He was vaccinated. Symptoms: bad cough, sore throat in mid-October then inflammation around the heart. His doctor prescribed amoxicillin – then his throat started to close up, lips, glands, and tongue got puffy. 103-degree temperature. He went to hospital two weeks before Thanksgiving and his liver numbers started getting worse, white blood cell count was high. I was fighting something, but they couldn't find out what it was. My liver was going downhill. I got jaundice. I was yellow and peeing out Pepsi-colored pee. He tested negative for COVID, but his heart was jumping out of rhythm. He was in and out of the hospital twice. Months later, he can't do activity, has inflammation around the heart, lost 25 pounds, lost muscle and his skin is saggy. He is still unable to eat solid food 3 months later. Move to mid-October. [News Story](#)

Kimera Bartee (49), Detroit Tigers former player and current first base coach suddenly collapsed and died while visiting his father in Omaha, Nebraska. The club manager said they had 100% player participation in the COVID vaccine. In spring 2021, the club had incentives for staff and fans to get the vaccine. The club manager said “the faster we get vaccinated, the safer we are and the more likely we are to be able to play continuously throughout our schedule.” On 6th September, reliever Joe Jimenez and bench coach George Lombard tested positive for the virus and had symptoms, even though both were vaccinated and the manager was surprised! What was he told about the vaccinations and what did he tell his team about the risks?

Donald Parham (24) Los Angeles Chargers (NFL) tight end player collapsed in mid-air while taking a flying touchdown catch. He had received two Covid-19 vaccines and a booster. His arms were shaking as he was wheeled off. It appears clear that his left arm locked up before his helmet hit the ground – that seems to be why he didn't handle the recovery well. The Chargers report he suffered a concussion, but the video tells a different story, a fraction of a second before his helmet touched down and his head suddenly threw back. The key to seeing this is to watch the action from the sideline, one frame at a time. Diego Correia (31), amateur runner was running 10K in Santos, on the coast of São Paulo and suffered severe chest pain that radiated to the upper limbs when he was near the Barão de Paranapiacaba do Samu base, on Avenida Ana Costa. He went to seek help from the unit and was treated in an advanced life support ambulance, where an electrocardiogram was performed. Was resuscitated after being treated for cardiorespiratory arrest and then sent to hospital. At the hospital, after three hours of treatment, he progressed to a aquicardia, followed by cardiorespiratory arrest. Minutes before starting the race, Correia used his social networks to celebrate participating in the event. Rules of the event recommend a rigorous prior medical evaluation and the performance of exercise testing for all participants. Unnamed (35) Czech ultramarathon runner died during a warm-up event ahead of the Ultra-Trail du Mont-Blanc after a fatal fall on a high-altitude mountain path. He fell during the night after setting off with more than 1,000 other runners from the Italian ski resort of Courmayeur on Tuesday afternoon along the 145-kilometre course of the TDS race to Chamonix in France. The most common cause of death in mountain races is cardiac arrest, according to a study, but this was the first death in an Ultra-Trail du Mont-Blanc event since their start in 2003. A Sanitary Pass was mandatory after July for participants requiring one of: proof of full vaccination, a recent negative COVID-19 test or a certificate of COVID-19 recovery. No bib

Alexandre Joao Kisonga (37), professional basketballer, Congo-Angolese origin lived in Italy since age 4, had Astrazeneca viral vector vaccine 6th April 2021, suffered exhaustion and slight pain during inoculation. On June 22 for his second vaccination, Astrazeneca was banned. The doctor asked him to choose Moderna or Pfizer (mRNA vaccines) – how could he possibly know the consequences? The doctor recommended Moderna and he agreed. Four days later, he felt exhaustion, tiredness and pain in the neck on the morning of a training session. After training, headaches began and his body temperature rose excessively. Headache continued for several days and his temperature rose again. On medical advice, he took Tachipirina to lower fever. A week later, he was no better and tried a COVID swab which returned a negative result. A week later, symptoms continued and he went to the hospital in Milan, diagnosed with tachycardia. Doctors did not want to talk about the vaccines but eventually diagnosed acute perimyocarditis. Six months later, he still cannot play. UPDATE: Jo says he will undergo a stress test January 11 2022, to see if he can return to play basketball. He expects to have a scar on his heart for life and will take 2 tablets a day for the next year. It may affect his physical activity.

Debbie Rice (31), world and national champion inline skater, a prime athlete. Against her better intuition and judgement, decided to get the Johnson and Johnson injection. She immediately became sick and a couple weeks later had a mini-stroke. Her body and life have not been the same since she was injected. Symptoms: within 1 hour, felt faint, teeth felt numb, then cheeks numb, then arms tingling, headaches, eyeballs hurt, blurred vision, double vision, the skin on her arms felt extremely hot, like a bad sunburn. Then felt dizzy, chest pain, shortness of breath. One day, she started feeling

Sander Haugrud (24), Norwegian kickboxing champion in 2019. Two weeks after his second COVID vaccine, stabbing chest pain started, after no previous history of heart problems or any health issues. Diagnosed with pericarditis. Physician at the hospital confirmed it was due to the vaccine. Sander Haugrud: “A couple of weeks after the second dose, I got a sting in my chest that turned out to be heart bag inflammation. I was on surveillance for three days. I have competed nationally and internationally in kickboxing, since the age of 10 to now. But it's a full stop at training and I don't know if I can ever train like I did. Now I'm mostly in prison. This might have been avoided, if I had a corona instead, I guess I'd be well by now. It is scary to know that no one mentions anything, I had to dig myself to find information, then I found that there were many cases like mine. At the hospital, doctors had a hard time believing the inflammation was due to the vaccine, but in the end the superior admitted it and said to report it to the
