I find myself going over and over the hows-and-whys Covid was planned, and that none of the virus, pcr, mask, mRNA, spike, or shots has anything to do with reality with a never ending line of persons who I am running out of adjectives for. I've posted these before but it's a crucial repeat.

The following docs have modest effect in bringing temporary relief to persons who suffer from Covid Derangement Syndrome. All images linked to source.

ABSTRACT

A method is provided for acquiring and transmitting biometric data (e.g., vital signs) of a user, where the data is analyzed to determine whether the user is suffering from a viral infection, such as COVID-19. The method includes using a pulse oximeter to acquire at least pulse and blood oxygen saturation percentage, which is transmitted wirelessly to a smartphone. To ensure that the data is accurate, an accelerometer within the smartphone is used to measure movement of the smartphone and/or the user. Once accurate data is acquired, it is uploaded to the cloud (or host), where the data is used (alone or together with other vital signs) to determine whether the user is suffering from (or likely to suffer from) a viral infection, such as COVID-19. Depending on the specific requirements, the data, changes thereto, and/or the determination can be used to alert medical staff and take corresponding actions.

The Covid-19 [Test Kit Imports: 2017](#)

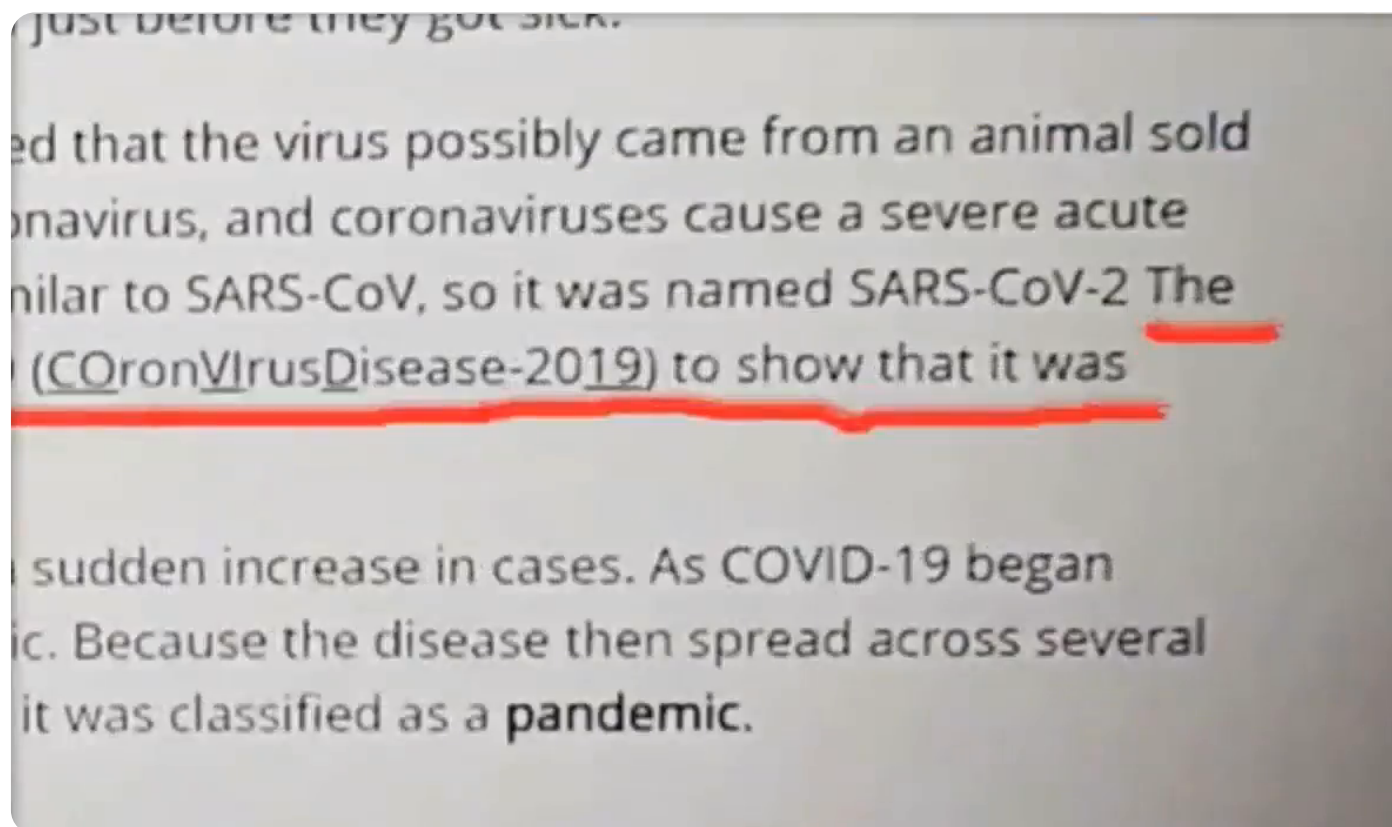

When the original WITS web page with the “Covid Test Kit” distribution dates in 2017 was found and went viral, the “Covid-19 Test Kits” designation was changed to “Medical Test Kits”. Here we can still see [an original with on the Way Back Machin](#) with the wits.worldbank url so it can not be a faked page.

The screenshot shows the WITS website interface. At the top, there is a navigation bar with 'Login' and 'Register' buttons, and social media icons for Facebook, Twitter, LinkedIn, YouTube, and Email. Below the navigation bar, there are dropdown menus for 'Trade Stats', 'Tariffs', 'Non-Tariff Measures', 'API', 'Analytical database', 'Tools', and 'Bulk Download'. A search bar contains the text 'COVID-19 Test kits (300215) imports by country in 2017', which is highlighted in yellow. Below the search bar, the results show 'COVID-19 Test kits (300215) imports by country in 2017' with a red arrow pointing to it. Underneath, there is a section for 'Additional Product information' and 'Category: COVID-19 Test kits/ Instruments, apparatus used in Diagnostic Testing'. A text block states: 'In 2017, Top importers of COVID-19 Test kits are European Union (\$17,131,541.68K , 2,759,970 Kg), Germany (\$8,731,545.89K , 3,015,010 Kg), United States (\$7,927,894.38K , 2,627,050 Kg), United Kingdom (\$6,291,366.96K , 1,062,590 Kg), Belgium (\$5,914,764.97K , 2,074,820 Kg)'. Below this, there is a section for 'COVID-19 Test kits exports by country in 2017' and a table with the following data:

| Country | Import | 300215 | COVID-19 Test kits | 2017 | World | 101,707.00 | 10,074 | Kg |
|-------------|--------|--------|--------------------|------|-------|------------|---------|----|
| Costa Rica | Import | 300215 | COVID-19 Test kits | 2017 | World | 97,408.08 | 172,005 | Kg |
| New Zealand | Import | 300215 | COVID-19 Test kits | 2017 | World | 92,221.86 | 23,140 | Kg |

| | | | | | | | | |
|------------------|--------|--------|--------------------|------|-------|-----------|--------|----|
| India | Import | 300215 | COVID-19 Test kits | 2017 | World | 72,748.89 | 5,069 | Kg |
| Hong Kong, China | Import | 300215 | COVID-19 Test kits | 2017 | World | 71,295.60 | 17,889 | Kg |
| Morocco | Import | 300215 | COVID-19 Test kits | 2017 | World | 64,060.97 | 33,920 | Kg |
| Peru | Import | 300215 | COVID-19 Test kits | 2017 | World | 56,598.58 | 53,733 | Kg |

By email

[REDACTED]@googlemail.com

Our ref: 06/06/22/HD/319

Dear [REDACTED],

23 June 2022

Re: Freedom of Information Request

Thank you for your request received on 6 June 2022 addressed to the UK Health Security Agency (UKHSA). In accordance with Section 1(1)(a) of the Freedom of

isolation", or records that describe a suspected "virus" floating in a vacuum or private patient information.

I simply request records that describe purification (separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.

If any records match the above description of requested records and are currently available in the public domain, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

I am grateful for your assistance in this matter and look forward to hearing from you in due course.

Response:

Information Act 2000 (the Act), we can confirm that UKHSA does not hold the information you have specified.

Request

Pursuant to the Freedom of Information Act 2000, please respond to/disclose the following:

Description of Requested Records:

All studies and/or reports in the possession, custody or control of the UKHSA describing the purification of the alleged "COVID-19 virus" (aka "SARS-COV-2", including any alleged "variants") directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Clarification of Request:

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a genome from sequences (allegedly) detected in an impure substance, and/or
- produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and am not requesting records that describe replication of a 'virus' without host cells. Nor am I requesting records that describe a strict fulfillment of Koch's Postulates, or records where researchers conflate extraction of genetic material from a patient sample or cell culture with "virus

There are no documents authored by The UK Health Security Agency (UKHSA) Public Health England (PHE) which relate to the purification of virus directly from clinical samples as described, as we did not attempt this. If you would like a purification protocol we would suggest a peer reviewed biomedical literature, citations can be found at [PubMed \(nih.gov\)](https://pubmed.nih.gov).

CDC

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control and Prevention (CDC)
Atlanta GA 30333
November 2, 2020

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of August 9, 2020, for "All records in the possession, custody or control of The Centers for Disease Control (CDC) describing the isolation of a SARS-COV-2 virus, directly from a sample taken from a diseased patient where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient).

Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing from everything else. I am not requesting records where "isolation of SARS-COV-2" refers instead to:

- * the culturing of something,
- * or the performance of an amplification test (i.e. a PCR test),

* or the sequencing of something.

Please also note that my request is not limited to records that were authored by the CDC or that pertain to work done by The CDC. My request includes any sort of record, for example (but not limited to) a published peer-reviewed study that the CDC has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it)."

A search of our records failed to reveal any documents pertaining to your request.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

Pinned

The Time Warp vid has just a little devilish imagery we could say. There is a Skull & Bones image hat, mention of the devil in the lyrics, and putting people under "sedation", like Covid and other poisons. Now that we know so much about the powers controlling the world you'll see this vid ar whole movie again in a new light.
