

# Alarming New Report from Working Group of Vaccine Analysis in Germany and Other Countries

Vaccines Must Be Stopped Immediately!

Ana Maria Mihalcea, MD, PhD

**Figure 7:** The Comirnaty vaccine from BioNTech/Pfizer exhibits a diversity and large number of unusual objects. The vast number of crystalline platelets and shapes can hardly be interpreted as impurities. They appear regularly and in large numbers in all samples.

From the report:

The COVID-19 vaccination programs must be stopped immediately. The German Working Group for COVID Vaccine Analysis has made its initial findings publicly available in a wide-ranging report:

1. Toxic substances were found in all of the samples of COVID-19 vaccines - without exception.
2. The blood samples of all the people who had been vaccinated showed marked changes.
3. The greater the stability of the envelope of lipid nanoparticles, the more frequent are vaccine side effects.

1. In all samples of COVID-19 vaccines, without exception, components were found, using several methods of measurement, that: - are, in the quantities found, toxic according to medical guidelines, - had not been declared by the manufacturers as present in the vaccines, - are for the most part metallic, - are visible under the dark-field microscope as distinctive and complex structures of different sizes, - can only partially be explained as a result of crystallization or decomposition processes, - cannot be explained as contamination from the manufacturing process.

2. The comparison of blood samples from unvaccinated and vaccinated individuals by means of dark-field microscopy showed noticeable changes in the blood of each person who had been vaccinated with the COVID-19 vaccines. This was evident even if those people hadn't at that point displayed any visible reaction to the vaccinations. Complex structures similar to those in the vaccines were found in the blood samples of the vaccinated. Using artificial intelligence (AI) image analysis, the difference between the blood of vaccinated and unvaccinated people was confirmed.

3. The stability of the lipid nanoparticle envelope is closely correlated with the incidence of vaccine side effects and injury. The more stable this envelope, the greater the amount of mRNA that penetrates cells, where the production of spike proteins then takes place. These results correspond with the findings of pathologists who have carried out autopsies on people who died due to vaccine injury. Spike proteins were detected in damaged tissue. Researchers suspect that the spike protein is, in itself, is toxic.

The following predominantly metallic elements were unexpectedly detected in the doses from AstraZeneca, BioNTech/Pfizer and Moderna:

- Alkali metals: caesium (Cs), potassium (K),
- Alkaline earth metals: calcium (Ca), barium (Ba),
- transition metals: cobalt (Co), iron (Fe), chromium (Cr), titanium (Ti),
- Rare earth metals: cerium (Ce), gadolinium (Gd),
- Mining group/metal: aluminium (Al),
- Carbon group: silicon (Si) (partly support material/slide),
- Oxygen group: sulphur (S)

Here is another researcher who found nanostructures:

[Further scientific evidence of nanostructures in Pfizer vials from New Zealand](#)

Dr. Daniel Nagase discusses in this video the mass spectroscopy that did not identify any Phosphorous or Nitrogen in the sample. This means there was no elements related to life, that constitute molecules like RNA, DNA or proteins.

Summary:

As a physician, I am horrified by this information. I want everyone in the world to see this, this is not normal. This is undeniable evidence. This is the transhumanist AI agenda in full force. The vaccines must be stopped. This is being injected into children. This is being injected into good people who know nothing about the diabolical agenda behind the shots. There is so much irrefutable information now, and all responsible need to be held accountable. Read this. Look at it. This was injected into 68% of the world population.

My heart goes out to those who have this in their body. Do something, share it, speak up. Save humanity. Thank you.

Watched video of hacker's accessing real time data of those injected with Sputnik jab; these people are now connected with the internet of things. Their data being mined constantly. Remember when sicko Harari said "humans are now hackable"

They've done it with these injections!

What we need are some mercenaries.

Preferably, Vampire mercenaries.

Think about it.

They are pale as chalk,

Old as dirt,

Cannibalism doesn't bother them at all.

They could blend right in at Davos.

They are perfect spies.

And they just LOVE rich humans!

To a Vampire, rich humans are basically like veal.

Conceptually repulsive, yes.

But oh, so buttery on the tongue!
