

What is Luciferase?

How a firefly enzyme that glows might herald the end of the world

As most of my followers on social media and Substack must know by now, I have spent a considerable amount of time the last two years trying to discover the actual ingredients of the new COVID vaccines. The reason is simple: Big Pharma has gone to considerable trouble to hide them.

Do the Big Pharma companies want to submit the vaccines to independent analysis? They do not! Do the Big Pharma companies want to disclose all the ingredients? They do not! Do the Big Pharma companies have any liability for lying to the public about the proprietary ingredients in their vaccines? They do not.

We have [a leaked copy](#) of the legal agreement that Big Pharma companies (allegedly) have forced nation-states to sign in order to get the new COVID vaccines. These contracts include indemnification clauses that no sane human being would ever sign. This [copy leaked](#) from Albania:

CONFIDENTIAL

No Party will gain any rights of ownership to or use of any property or Intellectual Property owned by the other Parties (whether by virtue of this Agreement, by implication or otherwise).

8. **INDEMNIFICATION.**

8.1 **Indemnification by Purchaser.** Purchaser hereby agrees to indemnify, defend and hold harmless Pfizer, BioNTech, each of their Affiliates, contractors, sub-contractors, licensors, licensees, sub-licensees, distributors, contract manufacturers, services providers, clinical trial researchers, third parties to whom Pfizer or BioNTech or any of their respective Affiliates may directly or indirectly owe an indemnity based on the research, development, manufacture, distribution, commercialization or use of the Vaccine, and each of the officers, directors, employees and other agents and representatives, and the respective predecessors, successors and assigns of any of the foregoing ("Indemnitees"), from and against any and all suits, claims, actions, demands, losses, damages, liabilities, settlements, penalties, fines, costs and expenses (including, without limitation, reasonable attorneys' fees and other expenses of an investigation or litigation), whether sounding in contract, tort, intellectual property, or any other theory, and whether legal, statutory, equitable or otherwise (collectively, "Losses") arising out of, relating to, or resulting from the Vaccine, including but not limited to any stage of design, development, investigation, formulation, testing, clinical testing, manufacture, labeling, packaging, transport, storage, distribution, marketing, promotion, sale, purchase, licensing, donation, dispensing, prescribing, administration, provision, or use of the Vaccine.

8.2 **Assumption of Defense by Purchaser.** The Indemnitee(s) shall notify Purchaser of Losses for which it is seeking indemnification pursuant hereto ("**Indemnified Claims**"). Upon such notification, Purchaser shall promptly assume conduct and control of the defense of such Indemnified Claims on behalf of the Indemnitee with counsel acceptable to Indemnitee(s), whether or not the Indemnified Claim is rightfully brought; provided, however, that Purchaser shall provide advance notice in writing of any proposed compromise or settlement of any Indemnified Claim and in no event may Purchaser compromise or settle any Indemnified Claim without Indemnitee(s)'s prior written consent, such consent not to be unreasonably withheld. Indemnitee(s) shall reasonably cooperate with Purchaser in the defense of the Indemnified Claims.

8.3 **Participation Rights.** Each Indemnitee shall have the right to retain its own counsel and to participate in Purchaser's defense of any Indemnified Claim, at its own cost and expense except as set forth below. A failure by the Indemnitee(s) to give notice or timely notice or to offer to tender the defense of the action or suit pursuant to this Section 8.3 (Participation Rights) shall not limit the obligation of Purchaser under this Section 8 (Indemnification), except and only to the extent Purchaser is actually prejudiced thereby.

8.4 **Assumption of Defense.** Notwithstanding the foregoing and without prejudice to Section 12.6, Pfizer, directly or through any of its Affiliates or through BioNTech, may elect to assume control of the defense of an Indemnified Claim (a) within thirty (30) days of Indemnitee's notice to Purchaser of the Indemnified Claim or (b) at any time if, in Pfizer's sole discretion: (i) Purchaser fails to timely assume the defense of or reasonably defend

One thing is certain: Big Pharma is not standing behind these products. They're totally experimental and untested and so forth — so why are the world's governments so hellbent on injecting their citizens with this stuff?

I received a tip regarding some of these ingredients, and so I did what nobody in American corporate journalism does anymore: I checked the primary sources.

Allow me to share my secret and very profound methodology:

- 1) I went to the MODERNA website.
- 2) I clicked to the PATENTS page.
- 3) I found PATENT US 10,703,789
- 4) I conducted a keyword search for something called: Luciferase.

Such are the complex technical skills which have been lost by corporate journalists. So what did I find there? Well, sitting on page 46 in table 4, you will see that I found something called *Luciferase*:

The plasmid may then be linearized using methods known in the art such as, but not limited to, the use of restriction enzymes and buffers. The linearization reaction may be purified using methods including, for example Invitrogen's PURELINK™ PCR Micro Kit (Carlsbad, Calif.), and HPLC based purification methods such as, but not limited to, strong anion exchange HPLC, weak anion exchange HPLC, reverse phase HPLC (RP-HPLC), and hydrophobic interaction HPLC (HIC-HPLC) and Invitrogen's standard PURELINK™ PCR Kit (Carlsbad, Calif.). The purification method may be modified depending on the size of the linearization reaction which was conducted. The linearized plasmid is then used to generate cDNA for in vitro transcription (IVT) reactions.

cDNA Template Synthesis

A cDNA template may be synthesized by having a linearized plasmid undergo polymerase chain reaction (PCR). Table 4 is a listing of primers and probes that may be usefully in the PCR reactions of the present invention. It should be understood that the listing is not exhaustive and that primer-probe design for any amplification is within the skill of those in the art. Probes may also contain chemically modified bases to increase base-pairing fidelity to the target molecule and base-pairing strength. Such modifications may include 5-methyl-Cytidine, 2,6-di-amino-purine, 2'-fluoro, phosphoro-thioate, or locked nucleic acids.

TABLE 4

Primers and Probes			
Primer/ Probe Identifier	Sequence (5'-3')	Hybridization target	SEQ ID NO.
UFP	TTGGACTCTGTACAG AAGCTAATACG	cDNA Template	22
URP	T ₂₁₆ CTTCTACTCAG GCTTATTCAAAGACC A	cDNA Template	23
GBA1	CCTGACCTTCTGGAA CTTC	Acid glucocere- brosidase	24
GBA2	CCAAGCACTGAACCG ATAT	Acid glucocere- brosidase	25
LUC1	GATGAAAAGTGTCCA AGGA	Luciferase	26
LUC2	AACCGTGATGAARAGG TACC	Luciferase	27
LUC3	TCAATGCGATTGGAAA GGTC	Luciferase	28
GCSF1	CTTCTTGGACTGTCCA GAGG	G-CSF	29
GCSF2	GCAGTCCGTGATACAA GAGG	G-CSF	30

What's Luciferase?

Luciferase is an enzyme that can produce bioluminescence. (It can make things glow, basically.) That's why Luciferase is commonly used in the biomedical industry. It's used to tag very tiny things like cells or proteins so that you can track them.

It tags things so you can track them.

Was Luciferase listed as an ingredient in the COVID vaccines by Big Pharma? No it was not. (You can [check here](#) at the CDC website.) So the next question becomes: why would Big Pharma not disclose that Luciferase is an ingredient in the vaccines - since it's clearly listed (in at least one patent from one company) as being used?

The reason is rather ominous: Big Pharma has big plans for Luciferase and Big Government has big plans for it too. The U.S. military's technology arm DARPA is [currently fighting with Moderna](#) over the ownership of the COVID vaccine because DARPA has "funded an implantable biochip" that could be used "to deploy" it:

Despite this, however, one obstacle to the deployment of Moderna's vaccine is the method of delivery. While Moderna is developing its own system, it's unlikely to get *Food and Drug Administration* (FDA) approval any time soon. Enter Profusa, which is developing a nanoscale biochip that can detect symptoms of an infection.

Profusa's biochip is made using a technology called "hydrogels" that were a product of the "In Vivo Nanoplatfoms" (IVN) program that DARPA's *Biological Technologies Office* (BTO) launched in 2014 to develop implantable nanotechnologies.

These hydrogels are soft, flexible nanomachines that are injected beneath the skin to perform monitoring. This hydrogel includes a specially engineered molecule that sends a fluorescent signal outside the body when it begins to fight infection. This signal can then be detected by a sensor attached to the skin that can then be sent to an app or even to a doctor's website.

Why is the U.S. military working with vaccine companies to create micro-chips (that's "hydrogels" or "nanotech"!) that will send a "fluorescent signal" (that's Luciferase!) detectable by an app on your smartphone? When did DARPA get involved in public health policy exactly? That strange question leads to other strange questions like: why did the Pentagon fund the Wuhan Lab of Virology to "study" [weaponizing bat coronaviruses](#)? Neither DARPA nor the Pentagon are well known for being leaders in health care, to say the very least.

In fact, Big Pharma and Big Government have big plans for future vaccine shots that have "dissolvable needles" and [quantum dot tattoos](#) along with other amazing technology like [embedding vaccine records beneath the skin of your children with invisible ink](#). According to one article: "Along with the vaccine, a child would be injected with a bit of dye that is invisible to the naked eye but easily seen with a special cell-phone filter, combined with an app that shines near-infrared light onto the skin." That article was written in 2019: that's just before the COVID crisis. That leads me to another thought: COVID-19 seems to be a very convenient "accidental lab leak" from China for introducing [new technology](#).

Under the cover of vaccinating people, we are really preparing to tag and track people. The once free nations of the West are testing a new authoritarian system of total control under the guise of public health. Just look at Australia or New Zealand or Canada or Italy to see how basic civil rights have been suspended indefinitely and a pseudo-medical tyranny has been installed. The Great Reset is being implemented with the lie that it's all about "protecting your health." Our military and intelligence agencies are not confronting China — they're copying China. A totalitarian nightmare is being imported into free countries through surveillance technologies.

You don't have to be a Christian to understand that such technology will be used to build a global surveillance state. The vaccine mandates have already led to vaccine passports. The vaccine passports are basically QR codes to track you by connecting to your smartphone. This will inevitably lead very soon to biometric ID embedded into your body. You won't be able to enter restaurants or buy groceries or go to work without it. As the Bible says: no one will be able

to buy or sell anything except those that have the mark. You will know the mark by its name, which is the name of the beast: the enemy of all mankind who, before he fell, was an angel of light named Lucifer. That's why "Luciferase" should send a chill down your spine.

So I sent out the following tweet to my followers (with a video showing the Luciferase patent information) earlier this week:

This one tweet was sufficient, apparently, to get the word "Luciferase" trending on Twitter. (I didn't notice at the time because I was busy covering the Glenn Youngkin victory on election night.) It was not until the next day that it became clear this one tweet had stirred up all the Big Pharma bots working remotely from Beijing.

The largest producer of misinformation in America, The Washington Post, [ran a piece](#) on my tweet where I was branded a "COVID conspiracy theorist." The Daily Beast [ran a piece](#) and then [ran a second piece](#). Something called [The Hill](#) ran a piece. The forgotten boomer finance magazine Forbes [got involved](#). Vanity Fair, the perfume ad magazine, did [a little column](#) on it. Then it became [an international thing](#) with The Independent and The Daily Mail [chiming in](#).

Newsmax White House correspondent is suspended from Twitter after she claimed COVID vaccines have satanic trackers called Luciferase and told her followers to read the New Testament to 'see how it ends'

- Emerald Robinson claimed the Moderna vaccine contained luciferase that allowed the vaccine to track people
- Newsmax has since released a statement claiming it is a 'strong proponent that COVID-19 vaccines are overwhelmingly safe and effective'
- Luciferase is a bioluminescence marker that is in a class of enzymes that can produce light in a chemical reaction and is not an ingredient in the vaccine
- She also told her fellow 'Christians' to read the New Testament to 'see how it ends.' The Book of Revelations details the visions of John and the apocalypse

Now you have to ask yourself: are my tweets about vaccine ingredients really making headline news around the world? I checked with my husband first to see if I was indeed *that famous*. His response was disappointing. He told me: "At best, you're semi-famous." When corporate media outlets around the English-speaking world all start to scream in such coordinated fashion, you know you've hit a nerve. Why would they suddenly go crazy over the COVID vaccine ingredients?

It's because Big Journalism is being paid by Big Pharma to not disclose the truth. In fact, Big Pharma is paying Big Journalism to actively *hide the truth* around the world. Why do you think the COVID journalist Alex Berenson got kicked off Twitter? Why did the corporate media unleash a hate campaign against feminist icon Naomi Wolf? Why isn't ex-Pfizer chief scientist Dr. Michael Yeadon allowed to speak? How is it possible that the inventor of mRNA vaccines himself, Dr. Robert Malone, is not a household name around the world? You know the answer: they have all warned us about the dangers of the new COVID vaccines. They have been silenced by Big Tech and Big Pharma because they have all dared to tell the truth.

They are not alone. How many thousands have been banned or suspended already by Big Tech for questioning the COVID vaccines in our supposedly free nation? How many of your civil rights, your constitutional rights, can they trample before your very eyes? America is no longer a constitutional republic: it's more like a corporate oligarchy where Big Pharma and Big Tech and Big Government tell you every day what you're allowed to do on Zoom calls from the CDC with Dr. Fauci. They're not even pretending anymore. This is something like Day 575 of "15 days to slow the spread." Our so-called civil servants and elected officials are never going to give up their new "emergency powers" on their own. They mean to rule over us, and everybody knows it.

That's why the COVID-19 pandemic is being used to force everyone to get the new vaccines. That's why natural immunity doesn't count to anyone in the medical community. That's why religious exemptions have disappeared at your work, along with medical exemptions. That's why Ivermectin and hydroxychloroquine (and every other therapeutic drug) were swiftly outlawed. That's why your 5 year old child will be "encouraged" and then coerced and then forced to take the jab, just as you were "encouraged" and then coerced and then forced to take the jab. That's why the global vaccination campaign never stops when the already vaccinated start to get sick with COVID, or young boys suddenly die from heart inflammation, or world famous soccer players collapse on TV in the middle of games. That's why health data (whether from Israel or Sweden or Florida or your local hospital) is totally irrelevant. The vaccine is being forced on everyone because the vaccine and the vaccine passport are the essential tools of a global surveillance system that will end everyone's basic human freedom.

You have been warned.

OUTSTANDING! Everything you said is true (I have been doing research) but I believe there is even more evil to come from the forced "vaccines". I believe there are multiple reasons why they are forcing this on the world and none of them are for the benefit of all humankind.

This is getting very scary - when will they start "hiding" this in EVERY vaccine given to our children (including as infants)? I've got four grown kids, five grandkids (one more on the way), and I'm ready to DIE to PROTECT THEM from our evil government!
